Advance Construction – Illinois – Supplement #2

The list on the following page shows Illinois projects included in the FY 2015-2018 Transportation Improvement Program that used advance construction (AC) from March 2015 through April 2015. Advance construction is a technique that allows a State to initiate a project using non-federal funds while preserving eligibility for future Federal-aid funds. After an advance construction project is authorized, the State may convert the project to regular Federal-aid funding provided Federal funds are made available for the project. This practice is used in anticipation of future federal funds.

This list shows the anticipated amount being converted to federal funds as well as what federal funding category the funds are being converted to.

Illinois Advanced Construction and Planned Conversion - Supplement #2 to FY 14-17 TIP

County	Sponsor	TIP #	Job #	Project Title	Project Description	Fiscal Year Award	Planned Federal Category	AC Converted to Federal	Anticipated AC Conversion to Federal
