Obligation Report for East-West Gateway Council of Governments

As required by 23 CFR 450.334, Metropolitan Planning Organizations (MPOs) are required to publish a listing of projects for which federal funds were obligated in the previous fiscal year. The following report details projects that obligated federal funds in Madison, Monroe, and St. Clair Counties in Illinois, and Franklin, Jefferson, St. Charles, and St. Louis Counties and the City of St. Louis in Missouri. This report documents federal funds obligated by the Illinois Department of Transportation (IDOT), Missouri Department of Transportation (MoDOT), local public agencies, Bi-State Development/Metro, and Madison County Transit District (MCTD). By definition, 'obligated' means that federal funds were authorized and committed by the State or designated recipient, and authorized by the Federal Highway Administration (FHWA) or awarded as a grant by the Federal Transit Administration (FTA). In some cases, FHWA funds are transferred to FTA. Once they are transferred to FTA for a transit project, the funds are administered as FTA funds and take on all the requirements of the FTA program.

The East-West Gateway area

This report documents the flow of federal funds in the region for federal fiscal year 2020 (October 1, 2019 – September 30, 2020) and was compiled based on information received from partner agencies including MoDOT, FHWA-Illinois Division, Metro, and Madison County Transit District. Within each agency a unique identifier or sponsor number is given to a project. The MPO identification number is called a TIP number. Projects can also be identified by the title and description of the improvements. These projects are listed on the following pages.

Appendix A defines 23 CFR 450.334. **Appendix B** details Advance Construction projects in Illinois. **Appendix C** provides a graphic summary of obligations, including a breakdown of funding by agency.

Listing of Projects Obligating Federal Funds in FY 2020

How to Read This Obligation Report

Project Information									As Programmed in TIP		Actual Budget to Date		Obligation	Federal Funds Remaining
Sponsor	Title	Description	County	TIP #	Sponsor #	Bike Elements	Ped Elements	Length (Miles)	Total Project Cost	Total Federal Cost	Total Project Cost	Total Federal Cost	Federal Funds Obligated in FY 2020 (10/1/19 - 9/30/20)	
ARNOLD	TENBROOK ROAD/ FOX SCHOOLS EXIT	AT JEFFCO BLVD (US 61/67) - LEFT TURN LANES - SIDEWALK - INTERSECTION IMPROVEMENT	JEFFERSON	6624-16	CMAQ-5403(668)	N	Y	0.1	$809,597	$566,717	$801,626	$541,417	($25,301)	$25,300

Project Information – This section gives background on the project

1. Sponsor – Agency in charge of project
2. Title – Project title
3. Description – Details of location and/or type of improvement
4. County – County in which project is located
5. TIP # – East-West Gateway Council of Governments project identification number
6. Sponsor # – Identification number given to project by Federal Highway Administration, IDOT, or MoDOT, or contract number for Metro or MCTD
7. Bike Elements – Identifies projects that have bike elements such as bike lanes shared use paths, etc.
8. Pedestrian Elements – Identifies projects that have pedestrian elements such as sidewalks, shared use paths, etc.
9. Length – Project length in miles

As Programmed in TIP – This section shows how the project appeared in the Transportation Improvement Program

1. Total Project Cost – Total estimated project cost as identified in Transportation Improvement Program
2. Total Federal Cost – Estimated federal cost or share as identified in Transportation Improvement Program

Actual Budget to Date – This section details the actual costs for the project

1. Total Project Cost – Actual costs incurred on project to date
2. Total Federal Cost – Federal funds obligated to date

Federal Funds Obligated in FY 2020

1. Federal Funds Obligated – Federal funds obligated for project during federal fiscal year 2020 (October 1, 2019 – September 30, 2020). Negative amounts indicate de-obligation or reduction of federal funds. De-obligation may occur if the project is under budget

Federal Funds Remaining – Difference between federal funds programmed in Transportation Improvement Program and actual amount of federal funds obligated

Projects Obligating Federal Highway Administration Funds - Missouri

Appendix A – Definition of 23 CFR 450.334

§450.334 Annual listing of obligated projects

(a) In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.

(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.

(c) The listing shall be published or otherwise made available in accordance with the MPO's public participation criteria for the TIP.

Appendix B – Advance Construction – Illinois

The list on the following page shows projects included in the FY 2020-2023 Transportation Improvement Program that used advance construction (AC). Advance construction is a technique that allows a state DOT to initiate a project using non-federal funds while preserving eligibility for future federal-aid funds. After an advance construction project is authorized, the state may convert the project to regular federal-aid funding provided federal funds are made available for the project. This practice is used in anticipation of future federal funds. This list shows the amount expected to be convert to federal funds (Future Federal Cost).

Appendix C – Summary of Obligations

The following pages provides a summary of obligated projects by state and funding type. For the entire region in FY 20, $404 million in federal funds were obligated with $63 million in FHWA funding in Illinois (including advance construction), $250 million in FHWA funding in Missouri, and $91 million in bi-state FTA funding (including Bi-State Development/Metro and Madison County Transit District).

MISSOURI - FHWA

Of the $250 million of the FHWA funds in Missouri that were obligated, $210 million were for MoDOT projects while $40 million were for local projects. Projects are categorized by main project type (preservation, safety, congestion, access to opportunity, sustainable development, and goods movement). Projects may contain multiple project types (i.e. preservation and safety), this analysis focuses on the main priority area of the project. In Missouri, $208 million (83%) of projects were for preservation of existing system, $14 million (6%) for operational and safety improvements, $19 million (7%) for congestion improvements, $9 million (4%) for sustainable development type projects (i.e. sidewalks, bike paths, etc.), and $400,000 (0%) for goods movement projects. There were no obligations for access to opportunity projects. The following two tables detail the breakdown by sponsor and by project type. Note that breakdown by project type excludes goods movement since it was 0%.

ILLINOIS - FHWA

Of the $63 million of the FHWA funds in Illinois that were obligated, $53 million were for IDOT projects while $10 million were for local projects. Projects are categorized by main project type (preservation, safety, congestion, access to opportunity, sustainable development, and goods movement). In Illinois, $59 million (93%) of projects were for preservation of existing system, $1 million (1%) for congestion improvements, and $3 million (5%) for sustainable development type projects (i.e. sidewalks, bike paths, etc.). There were no obligations for safety, access to opportunity, or goods movement projects. The following two tables detail the breakdown by sponsor and by project type. AC funded projects are included in these totals since the projects were obligated. Federal funds will be converted at a later date.

FTA

Of the $91 million of the FTA funds that were obligated $73 million were for Bi-State Development, $17 million were for Madison County Transit District, and $1 million were for non-profits who were recipients of operating assistance through the Section 5310 (enhanced mobility of seniors and individuals with disabilities) program. Projects are categorized by main project type (preservation, safety, congestion, access to opportunity, sustainable development, and goods movement). For FTA projects, $72 million (79%) of projects were for preservation of existing system, $3 million (3%) for safety improvements, $2 million (3%) for congestion improvements, and $14 million (15%) for access to opportunity type projects (i.e. operating assistance). There were no obligations for sustainable development or goods movement projects. The following two tables detail the breakdown by sponsor and by project type.
