Missouri New Projects

MoDOT has requested to add seven new projects to the TIP. MoDOT intends to use advance construction[1] for TIP# 6891A-20, 6992A-20, and 6992L-20 meaning that these projects initially will be funded with 100 percent state funds from MoDOT's operations budget until federal funds become available.

These projects are summarized on the next page:

[1] Advance construction is a mechanism that enables a sponsor to start construction using non-federal funds, with the understanding that it may later convert the project to federal-aid funding and receive federal reimbursement. To be eligible for conversion, the project must qualify for federal funds.

New Projects - Missouri					
Sponsor / TIP #	**Title – Limits**	**Description of Work**	**County**	**Federal Cost**	**Total Cost**

			TOTAL:	**$3,504,500**	**$6,324,000**

Missouri Scoping Projects

MoDOT has requested to add three scoping projects. MoDOT intends to use advance construction for TIP# 6992N-20 and 6992P-20. MoDOT's scoping policy is intended to ensure that projects have defined scopes and construction cost estimates before they are committed to the TIP. At this time, there is no construction funding committed to these projects and the projects entail preliminary engineering only (30 percent engineering).

These scoping projects are summarized on the next page:

Scoping Projects - Missouri					
Sponsor / TIP #	**Project Title - Limits**	**Description of Work**	**County**	**Fed / Total Cost for Design**	**Est. Cost Range for Construction**
MoDOT / 6992N-20	Various Routes – Various routes in the St. Louis District	Pavement preservation	Multi-County-Missouri	$0 / $50,000	$500,000 – $1 million
MoDOT / 6992O-20	I-55 – Weber Road to Lindbergh Boulevard	Pavement repairs	St. Louis	$18,000 / $20,000	$500,000 – $1 million
MoDOT / 6992P-20	MO 79 – At TR Hughes Boulevard	Intersection improvements	St. Charles	$0 / $50,000	$1 million – $2 million

Staff Recommendation: Staff recommends that the FY 2020-2023 TIP, *Connected2045*, and related Air Quality Conformity Determination be revised to add 11 new projects, modify four existing projects, and add three scoping projects as summarized above and detailed in the attachment. These projects are exempt with respect to air quality in accordance with federal regulations (40 CFR 93.126, 93.127) or are not regionally significant.
