

# Annual On-Road CO<sub>2</sub> Emissions

Preliminary Estimates for 2015

St. Louis Metropolitan Area

December 2015

This map shows on-road greenhouse gas emissions by one-mile square grid cells. Emissions were calculated using emission rates generated by the EPA MOVES modeling tool and vehicle miles traveled from East-West Gateway's transportation network model.

- Interstate Highway
- Major Road
- County Boundary

Sources: EPA Motor Vehicle Emissions Simulator (MOVES), East-West Gateway Council of Governments
