USACE AUTHORITY – TYPES OF ASSISTANCE

- **Technical Assistance**
  - Provide guidance on proper flood fight techniques and emergency construction methods.
  - Develop decision support products to assist in flood response decision making for Tribal, state and local community flood fight actions.
  - Utilize tools (MICA) to capture critical issues during flood event.

- **Direct Assistance**
  - Issuance of supplies, loan of equipment
    - Hand receipt (Cooperative Agreement) required - signed by state and local entity
    - Entity agrees to return in good condition, replace in kind or pay the cost for USACE to replace
  - Rescue operations
  - Direct flood fight operations
    - Cooperative Agreement required
    - Legal responsibility remains with State/local entity
REHABILITATION OF FLOOD CONTROL WORKS

- Repair eligible federal and non-federal levee projects damaged by flooding.
  - 80/20 cost share required for rehab of non-federal levee projects.
  - Eligible Federal levee projects 100% federally funded.

- Conduct damage assessments of levee projects at the request of the sponsor.

- Prepare Project Information Reports documenting damages and repair cost.
  - Submit to Division for project approval.
2017 Spring High water Event:
- New damages to 2015 projects: Project will be modified
- Exacerbated damages to 2015 projects: Project will be modified
- New damages to new levee district: New PL 84-99 project
LEVEE SAFETY PROGRAM

- Levee Inspections – Monitor and record inspection results and notify stakeholders of deficiencies.
- Risk Awareness and Communication with Local Sponsor
- National Levee Database – inventory of levees across the nation.
