EAST-WEST GATEWAY COUNCIL OF GOVERNMENTS
BOARD OF DIRECTORS
JANUARY 28, 2015

The regular meeting of the Board of Directors was held in the Council offices on Wednesday, January 28, 2015 at 10:00 a.m.

Members in Attendance
Francis Slay, Chair; Mayor, City of St. Louis
Mark Kern, Vice-Chair; Chairman, St. Clair County Board
Alan Dunstan, Chairman, Madison County Board
Steve Ehlmann, County Executive, St. Charles County
Barbara Geisman, Regional Citizen, City of St. Louis, MO
Greg Horn, MoDOT
Curtis Jones, IDOT
Richard Kellett, Regional Citizen, St. Louis County
John A. Laker, Regional Citizen, St. Clair County
Jack Minner, Board Member, Madison County
John Miller, Mayor, City of Collinsville; President, SW IL Council of Mayors
Roy Mosley, Board Member, St. Clair County
John Nations, Metro
Alvin Parks, Jr., Mayor, City of East St. Louis
James Pulley, Regional Citizen, St. Clair County
Lewis Reed, President, Board of Aldermen, City of St. Louis
Thomas Schneider, Mayor, City of Florissant; President, St. Louis County Municipal League
Steve Stenger, County Executive, St. Louis County
Dave Stoecklin, Regional Citizen, Madison County, IL
Jim Terry, Jefferson County
Ken Waller, County Executive, Jefferson County
John White, Councilman, St. Charles County

Members Absent
Mark Eckert, Mayor, City of Belleville; Vice President, SW IL Council of Mayors
John Griesheimer, Presiding Commissioner, Franklin County
John Hamm, III, Mayor, City of Madison; President, Southwestern Illinois Planning Commission
Ted Hoskins, Mayor, City of Berkeley
Edie Koch, Illinois Department of Commerce and Economic Opportunity
Terry Liefer, Chairman, Monroe County Board
Brian May, Office of Missouri Governor Jay Nixon

Others in Attendance
Tracy Beidleman, Metro
Kim Cella, Citizens for Modern Transit
Tom Curran, St. Louis County
Others in Attendance, cont’d
Gary Elmestad, St. Charles County
Joe Gray, MoDOT
Ed Hassinger, MoDOT
Steve Johnson, St. Louis Regional Chamber
Jim McHugh, St. Louis County
Bill Schnell, MoDOT
Stephanie Leon Streeter, St. Louis County

EWGCOG Staff:
   Ed Hillhouse, Jim Wild, Staci Alvarez, Royce Bauer, Jerry Blair, Wayne Flesch, Ross
   Friedman, Nick Gragnani, Larry Grither, Medora Kealy, Jason Lange, Sang Gu Lee,
   MaryGrace Lewandowski, Christopher Michael, Anna Musial, Rachael Pawlak, Sonya
   Pointer, John Posey, Mary Rocchio, Lubna Schoaib, Himmer Soberanis, Julie Stone, DJ
   Wilson, David Wilson, Aaron Young

CALL TO ORDER

The meeting was called to order by Mr. Slay, Chair.

INTRODUCTIONS
Mr. Slay introduced new members Steve Stenger, St. Louis County, and Jim Terry, Jefferson
County.

APPROVAL OF MINUTES OF OCTOBER 29, 2014, NOVEMBER 7, 2014 and NOVEMBER
14, 2014

Motion was made by Mr. Reed, seconded by Mr. Waller, to approve the minutes of the October

DISCUSSION ITEMS

OneSTL Report to the Region and Where We Stand Update: Sustainability
Aaron Young, EWGCOG, provided a brief history along with a summary of the plan whose
mission is to provide support, strategies and models for implementing projects that protect the
environment and increase economic development. He summarized staff’s continuing work
toward building collaboration and support among stakeholders in the region, and identifying new
sources of funding for regional projects. He summarized staff’s report setting forth the network
and resources available, performance metrics, and sustainability stories from across the region
that highlight projects, initiatives and resources.

Mary Rocchio, EWGCOG, summarized the updated publication that addresses the St. Louis
region’s ranking against 34 peer metropolitan statistical areas relating to prosperity, air quality
and transit ridership, and the relationship between the measures that were used in preparing the
assessment.
Additional discussion followed regarding sustainability priorities referenced in the plan and concerns about the significance of certain priorities in light of recent events; staff’s current and future levels of involvement beyond collaboration and coordination in pursuing strategies outlined therein; importance of the continuous study of issues and update of the plan; and the lack of funding to accomplish goals.

MoDOT Direction
Ed Hassinger, MoDOT, reported on funding deficiencies and associated negative impacts, absent corrective action, facing Missouri transportation funding in the future. His presentation included information on how the Missouri portion of the region compares to other states in investment per mile spending, the remedial actions already undertaken by MoDOT to reduce its budget, and how shortfall impacts will affect bridges and supplementary roads.

Additional discussion followed regarding the same funding problems facing the entire nation and the federal government; local options for increased funding revenue; and ceasing studies to redirect funding to necessary projects.

ACTION ITEMS

Election of Board Officers for 2015
Mr. Slay reported that the Nominating Committee has recommended the following 2015 Board officers: Mark Kern, Chair; Ken Waller, Vice-Chair; and Alan Dunstan, 2nd Vice Chair.

Motion was made by Mr. Parks, seconded by Mr. Pulley. Motion carried, all voting aye.
The gavel was then passed to 2015 Chair Mark Kern.

Authorization to amend the Subcontract with South Grand Community Improvement District for the South Grand Rain Garden Project
David Wilson, EWGCOG, summarized staff’s recommendation to authorize the Executive Director to amend the subcontract with the South Grand Community Improvement District to provide up to $45,000 in grant funds to install fencing around rain gardens and bio-retention areas.

Motion approving the recommendation was made by Ms. Geisman, seconded by Mr. Slay. Motion carried, all voting aye.

Mid-Year Air Quality Conformity Determination and Documentation for the FY 2015-2018 Transportation Improvement Program and related amendments to the Metropolitan Transportation Plan - RTP 2040
Jason Lange, EWGCOG, summarized staff’s recommendation to approve the Mid-Year Air Quality Conformity Determination and Documentation (8-Hour Ozone & PM2.5) for the Amendment to the FY 2015-2018 Transportation Improvement Program and related amendments to RTP 2040.

Motion approving the recommendation was made by Ms. Geisman, seconded by Mr. Stoecklin. Motion carried, all voting aye.
Modification of the Metropolitan Transportation Plan – *RTP 2040* to add one project
– City of Wentzville
Jerry Blair, EWGCOG, summarized staff’s recommendation to amend the Metropolitan
Transportation Plan to include the David Hoekel Parkway on the plan’s fiscally-constrained
project list.

Motion approving the recommendation was made by Mr. Waller, seconded by Mr.
Ehlmann. Motion carried, all voting aye.

Modification of the FY 2015-2018 Transportation Improvement Program (TIP), the
Metropolitan Transportation Plan – *RTP 2040*, and the related Air Quality Conformity
Determination to add 24 projects – Section 5310 Program (Illinois)
Jason Lange, EWGCOG, summarized IDOT’s request and staff’s recommendation to amend the
FY 2015-2018 TIP, *RTP 2040* and related Air Quality Conformity Determination to add 16 new
projects, as summarized in the accompanying memo and its attachments.

Motion approving the recommendation was made by Mr. Kellett, seconded by Mr. Reed.
Motion carried, all voting aye.

Modification of the FY 2015-2018 Transportation Improvement Program (TIP), the
Metropolitan Transportation Plan – *RTP 2040*, and the related Air Quality Conformity
Determination to add 40 projects and modify one – Transportation Alternatives Program
(Missouri)
Mr. Lange, EWGCOG, summarized Metro, MoDOT’s, the City of DeSoto and East-West
Gateway Council of Government’s request to revise the FY 2015-2018 TIP, RTP 2040 and
related Air Quality Conformity Determination to add 40 new projects and to modify one project
currently programmed, as summarized in the accompanying memo and its attachments.

Motion approving the recommendations was made by Mr. Reed, seconded by Mr. Laker.
Motion carried, all voting aye.

Regional Security Expenditures
Nick Gragnani, STARRS, summarized staff’s recommendations of the following expenditures,
totalling $348,119. The expenditures will be funded from the U.S. Department of Homeland
Security’s Urban Area Security Initiative (“UASI”); and US Department of Health and Senior
Services, Assistant Secretary of Preparedness and Response (ASPR) grant programs.

Motion approving the recommendations was made by Mr. Dunstan, seconded by Mr. Ehlmann. Motion passed unanimously.

**OTHER BUSINESS**

Mr. Kern gauged interest in organizing and holding a Board summit this summer to address the future direction and involvement of East-West Gateway.

Mr. Schneider shared that he recently visited McCleuer North High School to visit with students to deliver a speech inspiring them to be involved in their community.

Mr. Mosley talked about East St. Louis’s role and availability within the region, and he advised of opportunities for spurring economic development. Mr. Parks advised of a 5K run being organized by Go St.Louis, and he requested that Board members consider East St. Louis when contemplating economic opportunity locations.

**ADJOURNMENT**

Motion was made by Mr. Waller seconded by Mr. Reed, to adjourn the meeting. Motion carried, all voting aye.

Respectfully submitted,

Ed Hillhouse
Secretary, Board of Directors
Memo to: Board of Directors  

From: Staff  

Subject: Amendment to the 2015 Unified Planning Work Program: Addition of Elements 2.10a Jefferson County Roadway Curve Evaluation and Inventory and 2.10b Herculaneum Corridor Study  

Date: February 10, 2015  

All planning projects funded with federal transportation dollars are required to be in the Unified Planning Work Program (UPWP). The Missouri Department of Transportation (MoDOT) has requested that we amend the FY 2015 UPWP to include two Traffic Engineering Assistance Program (TEAP) projects for our region. The projects will be funded with Federal Highway TEAP funds (80%) and the local project sponsors will provide 20% matching funds. The project work elements are attached.

We anticipate that the work will begin this spring and will be concluded in the fall of 2015.

**Staff Recommendation:** Staff recommends that the 2015 Unified Planning Work Program be amended to include the work elements 2.10a Jefferson County Roadway Curve Evaluation & Inventory and 2.10b Herculaneum Corridor Study.
Activities:

Jefferson County is seeking to evaluate all curves in the County as a systematic safety improvement and for systematic compliance with the MUTCD.

- Perform a comprehensive review and collect field data on roadway speed.*
- Perform a comprehensive review and collect field data on existing striping.*
- Perform a comprehensive review and collect field data on superelevation presence.*
- Perform a comprehensive review and collect field data on shoulder presence for use in the roadway evaluation.*
- Complete a comprehensive report that will be produced for the County in printed and electronic forms.* The report will outline:
  - Existing roadway signing and MUTCD compliance.
  - Recommendation for changes or verification of curve signing compliance.
  - Log points of all curves evaluated.
  - Photographs.
  - Collected roadway data.

*(Note: All work will be performed by a consultant.)

Products/Outcomes:

- Identification of proper signing deficiencies and proper signing recommendations to allow the County to move forward with corrections that would significantly improve roadway safety for drivers in Jefferson County (September 2015)
- Recommendations for properly signed roadways that can be implemented to provide drivers with the tools necessary to safely and efficiently operate on County roadways.
- Recommendations for innovative solutions including but not limited to: improved signing (i.e. chevrons), sign placement and intentional redundancy, pavement markings (centerlines and edge lines), advance curve warning and advisory speed signing, reflective obstacle delineation, shoulders, rumple strips/stripes, safety edge, high friction treatments, superelevation corrections, raised pavement markers, flashing beacons, dynamic curve warning signs, or pavement inset lights that will improve the safety of selected roadway curves.
Jefferson County Roadway Curve Evaluation and Inventory
2.10a

</tbody>
</table>
Activities:

An operational and safety study will be completed for Scenic Drive between Autumn Ridge Drive and Truman Drive including the following tasks:

- Collect machine count data and speed data along Scenic Drive at three locations.
- Collect manual traffic spot counts and observe traffic conditions during the AM and PM peak hours at the three all-way stop intersections along the corridor.
- Forecast potential traffic growth for a twenty-year planning horizon using growth rate data provided by the City.
- Review crash statistics provided by the City, if available.
- Identify and evaluate various alternatives for short and long term improvements to operations and safety including auxiliary lanes, traffic control changes, sight distance improvements, and corner radius improvements.

Products/Outcomes:

The City desires to identify the existing and future traffic demands along Scenic Drive. Specifically, the City desires to evaluate the appropriate speed limit for Scenic Drive and to evaluate whether the existing all-way STOP intersections are warranted and make recommendations as to the appropriate speed limit and intersection control along the corridor.

- Identify existing traffic levels and appropriate traffic control.  *(September 2015)*
- Identify improvements, if necessary, to better accommodate bicyclists and pedestrians. *(September 2015)*
- Using aerial photographs and/or base maps provided by the City, prepare conceptual graphics illustrating the recommended improvements with general dimensions and signage requirements. *(September 2015)*
- Prepare one final report summarizing findings and recommendations for the corridor. *(September 2015)*

To: Board of Directors
From: Staff
Subject: Modification of the FY 2015-2018 Transportation Improvement Program (TIP), the Metropolitan Transportation Plan – RTP 2040, and the related Air Quality Conformity Determination – Missouri Project Sponsors
Date: February 10, 2015

East-West Gateway Council of Governments (EWG) is requesting to revise the FY 2015-2018 TIP, RTP 2040, and related Air Quality Conformity Determination to add seven new projects

New Projects

On-System Bridge Program

On-System bridges are on roads classified as urban collectors, arterials, expressways or interstates as identified by the Federal Functional Classification system. Illinois does not suballocate bridge funding in this manner.

Repair and maintenance of bridges in the St. Louis region continues to be a priority. In Missouri, a number of previously programmed BRM projects received lower than anticipated bids and one bridge project was removed from the TIP by the sponsor. As a result, there is a balance of funds available for bridge rehabilitation and replacement. MoDOT’s Central Office has alerted staff that these funds need to be obligated by September 30, 2017 or the funds could go elsewhere.

To address this situation, staff conducted a solicitation for eligible projects. Final applications were due January 15, 2015. Eight applications requesting $10.3 million in federal funds were received. The projects were evaluated using the Board adopted process including bridge usage, the project’s useful life and cost-effectiveness.

Staff evaluated the projects and developed a list of seven recommended projects. MoDOT’s Bridge Division determined that the one remaining project was not eligible for funding. The total federal amount requested to be programmed is $9,758,830. Due to the September 30, 2017 deadline, no schedule extensions beyond that date will be granted to projects funded through this BRM application cycle.
The new projects are summarized below:

<table>
<thead>

Subject:  Regional Security Expenditures
Date:  February 10, 2015

Staff is requesting authorization to expend funds in support of regional security that will improve the region’s disaster preparedness and response capabilities. Funding will come from the U.S. Department of Homeland Security’s Urban Areas Security Initiative (UASI) and the U.S. Department of Health and Senior Services, Assistant Secretary of Preparedness and Response (ASPR) grant programs. Attachment A summarizes these purchases totaling $110,335. Also attached is a summary description of all budgeted expenditures from the UASI grants (Attachment B).

1. **Emergency Medical**

**Infection Control Officer Training** - The Ryan White law and National Fire Protection Association (NFPA) 1581 standard state that every fire, EMS and law enforcement agency in the United States must have a designated Infection Control Officer to manage bloodborne pathogen and airborne droplet exposure issues that may affect staff. Therefore, we are seeking authorization to contract with Infection Control / Emerging Concepts to train regional first responders and other applicable agencies and their staff on the following three training courses: 1) Basic Designated Infection Control Officer Training, 2) Advanced Designated Infection Control Officer, and 3) OSHA / Bloodborne / Airborne / droplet Train-the-Trainer course. These training programs will cover the various laws and regulations that must be considered to establish a comprehensive program, core components of an effective post-exposure management program, roles and responsibilities of the Designated Infection Control Officer, and conducting OSHA training on bloodborne pathogens and airborne / droplet diseases. Total cost will not exceed $15,950.

2. **Hospital Medical Surge**

**Ultraviolet (UV) Disinfection Lamps** – As a result of the Ebola Virus Disease (EVD) epidemic in Africa and the United States hospitals’ experience with EVD during the fall of 2014, a need has been identified for specialized medical equipment to combat the spread of infectious disease among the region’s healthcare facilities. Therefore, we are requesting approval to purchase ultraviolet
disinfection lamps that will be used to kill bacteria and viruses on surfaces in patient treatment rooms or other patient areas, such as ambulances, before and/or after treatment of infected or at-risk patients. The lamp can be activated by timer to operate over a prescribed time to ensure a patient treatment area is free from infectious agents. We are requesting approval to purchase seven Ultraviolet Disinfection Lamps to be stored in equipment caches staged for response when an infectious disease incident occurs at selected hospitals in the region. Total costs will not exceed $25,000.

3. **Urban Search and Rescue**

**Personal Protective Suits** - We are requesting approval to purchase personal protective suits for the five regional Urban Search and Rescue teams staged in the City of St. Louis, Franklin, Jefferson, St. Charles, St. Louis, and St. Clair Counties. The coverall-style protective suits would allow responders to enter a contaminated area safely and perform technical rescue of victims. Total cost will not exceed $20,785.

**Paratech Lifting and Shoring Equipment** - We are seeking to enhance the regional Urban Search and Rescue Teams’ capabilities with the purchase of Paratech lifting and shoring equipment. This equipment would enhance the teams’ abilities to lift and stabilize heavy concrete and steel for accessing and rescuing trapped victims while providing added safety to rescuers responding to incidents. The total cost of the purchase from Banner Fire will not exceed $48,600.

All of the purchases described in this memo are being made in accordance with the agency’s procurement policy.

**Staff Recommendation:** Staff recommends that the Board approve the expenditure of funds as follows:

- allow the Executive Director to enter into a contract with Infection Control / Emerging Concepts to provide three Infection Control courses in an amount not to exceed $15,950;

- for the purchase of seven Lumalier UV Air and Surface Disinfection Lamps from EA Medical, LLC in an amount not to exceed $25,000;

- for the purchase of 576 Zytron coveralls from Cynergy Solutions in an amount not to exceed $20,785; and,
• for the purchase of 60 Paratech Lifting and Shoring Equipment from Banner Fire in an amount not to exceed $48,600,

for a total amount not to exceed $110,335 from the UASI and ASPR grant programs.

2 - Hospital Medical Surge  
3 - Urban Search and Rescue
Critical Response Teams

A key goal under the UASI Strategy is to strengthen our critical response teams. We have largely accomplished this goal with hazardous materials and heavy rescue equipment and training. These teams are capable of responding to terrorist attacks, industrial accidents or natural disasters like earthquakes and tornadoes. Another element of critical response includes medical supplies for mass casualty incidents. The MCI trailers represent the first stage of meeting this need for the EMS community. Also included is equipment for Incident Management Teams that will consist of emergency responders from all disciplines. These mobile teams are activated to support emergency responders managing an event where the event continues over many hours or days.

Law Enforcement Tactical Team Equipment

There are 7 law enforcement tactical response units in the region which need communications, tactical lights and personal protective equipment. Three of the teams will receive tactical vehicles and Metro Air Support will receive a helicopter and other equipment to support response to a variety of terrorist incidents.

Interoperable Communications

A variety of projects come within the description of Interoperable Communications. Radio caches, satellite phones and video conferencing and the Land Mobile Radio Communications Plan are included, as well as a microwave tower backbone system.

The Virtual EOC

The virtual EOC strengthens regional collaboration on a day to day basis through a web based interactive network that links the region's eight EOC's and numerous other users for planning, preparing for and responding to an incident. In future years we hope to add a robust Geographic Information System capability.
**Emergency Patient Tracking**

Patient Tracking allows emergency medical services and hospitals to rapidly enter data about a patient into a secure wireless web-based tracking system. The data includes identification, triage condition and transport information and allows the hospitals to balance patient loads and provide information to families.

**Expand Public Health Capabilities**

Local public health agencies are working to prepare the region and protect citizens and first responders in the event of bioterrorism and natural diseases. Work is underway to establish an automated syndromic surveillance system for the early detection of naturally occurring or man made disease outbreaks.

**Mass Casualty Equipment, Medical Supplies and Software for Hospitals**

Hospitals are preparing the region for a response to a medical surge or mass casualty incident (MCI) by staging emergency response trailers that are equipped with medical supplies, cots and bedding at selected hospitals for deployment anywhere in the St. Louis region. In addition, the hospitals will dispense medicine to employees, their families and patients in the event of a large-scale bioterrorist or naturally occurring illness. The hospitals have software that will help with the dispensing of this medicine and the management of an MCI when it occurs.

**Disaster Incident Management System for Hospitals and Tactical Response**

The disaster incident management software system provides a tactical incident management capability for hospitals and response teams that includes federally required forms and plans. For the hospital systems it also includes a regional bed tracking capability.

The TEW is operated by the St. Louis Metropolitan Police Department and the St. Louis County Police Department and serves as a central clearinghouse for information and intelligence to help detect and prevent acts of terrorism.

This program includes Citizen Emergency Response Teams and other similar teams designed to educate the public about disaster preparedness and train them to assist their neighbors. Expenditures include equipment and training to help citizens learn to respond to hazards as part of a team in their neighborhood or workplace, and public information. The program also includes the sheltering project which brings generators and shelters into the region to protect citizens who need shelter.

Includes regional emergency coordination planning, mutual aid improvements, public information and enhancements to critical infrastructure protection.

Two regional exercises occurred on August 9-10 2006 at Busch Stadium and Olivette. In addition, Community Emergency Response Teams (CERT) exercises were added in FY06.

Most disciplines have received and will continue to attend training activities to enhance their skills. Included are heavy rescue, hazmat, incident management teams, law enforcement, public health and hospitals.
