I. Introduction & Background

The East West Gateway Council of Governments (EWG) and the St. Louis Area Regional Response System (STARRS) is seeking assistance to support a focused regional training, exercise, and planning project. The St. Louis region, as it pertains to this invitation, constitutes the Missouri counties of Franklin, Jefferson, St. Charles, and St. Louis, and the independent City of St. Louis and the Illinois counties of Madison, Monroe, and St. Clair.

The contract period is expected to begin June 1, 2018 and will end not later than June 30, 2020.

The basis of the project is the FY2016 Program to Prepare Communities for Complex Coordinated Terrorist Attacks (CCTA), provided by the Department of Homeland Security (DHS) through the Federal Emergency Management Agency (FEMA) to East West Gateway Council of Governments. The project focus is to enhance preparedness and build capacity to prepare for, prevent, and respond to complex coordinated terrorist attacks in collaboration with the whole community. Complex coordinated terrorist attacks are acts of terrorism that: involve synchronized and independent team(s) at multiple locations sequentially or in close succession, initiated with little or no warning, and employing one or more weapon systems: firearms, explosives, fire as a weapon, and other non-traditional attack methodologies which are intended to result in large numbers of casualties.

Through program delivery of the Urban Area Security Initiative (UASI) and Assistant Secretary for Preparedness and Response Hospital Preparedness Program (ASPR HPP) grants, STARRS has delivered several training courses that relate to complex coordinated terrorist attacks. It is through these courses, along with real world responses to non-CCTA incidents, many of the gaps the CCTA grant is designed to assist with closing have already been identified. Individuals and agencies working in a dozen various preparedness and response subcommittees understand the need to support and participate in CCTA planning and exercises. Subcommittee members form the Urban Working Group and consist of representative from various fire, law enforcement, EMS, hospitals, whole community, and other response agencies working together in order to achieve regional emergency preparedness goals.

Key components of the CCTA project will be the development of multiple response guides designed to integrate response partners during a CCTA response. The guides will have specific components that mutual aid partners will need to adhere to in order to safely respond to a complex attack. The sheer number of primary response agencies in the St. Louis region makes a single policy for response unattainable. A single regional CCTA Response Plan will be written as a regionally accepted guidance document, not as a policy. The CCTA Response Plan will bring together the response guides in a format that will be easy to reference before and during a complex incident.

When developing a plan, the planning process and subsequent roll out are very important pieces to bring a concept to reality. The field guides will be a part of the plan and all will be presented through seminars and workshops to responders and then tested via a variety of exercises. Information gathering, planning, and exercises are all components of this project and request for proposal.

---

1 STARRS is a not for profit organization formed to coordinate response planning to critical incidents in the St. Louis metropolitan region and serves as the Urban Area Work Group for UASI funding. The East-West Gateway Council of Governments (Council or East-West Gateway) is the fiscal agent for STARRS and recipient of grant funding for this project. All contracts will be with East-West Gateway. However, STARRS staff will be actively involved in the selection of the Consultant(s) and ongoing management of the project.
II. Scope of Work

Respondents should propose on the following general scope, providing detail on how each task will be accomplished, staff commitments, and resources necessary to accomplish each of the following tasks:

**Task 1 - Project Kickoff and Project Management:**
The Consultant will be responsible for maintaining adherence to timelines, milestones, and all contracted aspects of the project. The Consultant will meet regularly with staff throughout the project period. At the beginning of the project, the Consultant, staff, and other stakeholders will hold an in-person kick-off meeting to discuss the Consultant’s approach to the project, recommendations for the project, and to finalize the project schedule. The Consultant must hold regular conference calls with staff. Every two weeks is typical with additional conference calls as needed. Costs of conference calls will be incurred by the Consultant. All in-person meetings throughout the project scope are to be held locally in the St. Louis region.

**Stakeholder Meetings:** The stakeholder group is a CCTA workgroup that includes representatives from the following disciplines: law enforcement, fire, EMS, hospitals, emergency management, dispatch centers, and staff. The Consultant will conduct a minimum of seven (7) in-person meetings with this stakeholder group. Additional meetings or conference calls may be necessary in order to complete the work. The first meeting will be an in-person project kickoff meeting during which the Consultant will introduce all key project personnel, provide a proposed schedule of meetings and timeline of deliverables, plan for achieving the objectives described in the scope, and gather stakeholder input. Additionally, the Consultant will confirm with attendees the most significant gaps to be addressed by the Consultant during the contract period. During subsequent meetings, the Consultant will engage the group in discussions to determine the details of the project and deliverable documents and obtain feedback from the group on the draft reports. Conference calls with the stakeholder group should be expected and planned for accordingly. All meetings must be documented in a report that provides meeting minutes with key findings, attendee rosters, and the direction that was given or actions resulting from the meeting. Meeting reports must be provided to EWG/STARRS within 10 working days after meeting.

**Materials Review:** The consultant will be provided findings reports from regional trainings including Joint Counter Terrorism Workshop Series, Integrated Emergency Management Course – Complex Attacks, and other materials in order to inform a summary gap analysis to be developed by the consultant. The gap analysis will serve as guidance material supporting the Regional Complex Coordinated Terrorist Attack Plan, guides, and exercises. Materials review will be completed prior to the kick-off meeting in order to provide appropriate background to the Consultant of the region’s prior work on CCTA incidents and support the gap analysis discussion during the kick-off meeting.

**Task 1 Deliverables:**

1. In-person kick-off meeting as described above.

2. Gap analysis summary developed from provided review materials and kick-off meeting feedback. Gap analysis will be provided as part of the kick-off meeting reports to EWG/STARRS for approval prior to beginning Task 2.

3. Consultant will provide documentation that outlines the Consultant’s project approach to satisfy the deliverables and provide recommendations;
II. Scope of Work

4. Consultant will provide a timeline of deliverables;

5. Consultant will provide a proposed project and meeting schedule;

6. Consultant will provide meeting or conference call minutes, to include attendees, dates, times, locations, and key findings and direction / actions resulting from the meeting;

7. Consultant will provide monthly invoices;

8. Consultant will provide monthly progress reports.

Task 2 - CCTA Operational Guides:

Operational guides will be developed utilizing input from front line responders through facilitated workshops. The region utilizes automatic mutual aid regularly so a plan informed by those who will use the plan is the best approach. The scenario based workshops will serve as the means of information gathering for the guides/plan. The multiple guides will be developed through workshops and then used as part of, and to inform, the Regional CCTA Response Plan. Workshops should be planned as half day, four (4) hours, and can be held back to back. Facilities will be scheduled by STARRS staff in coordination with the Consultant. Location availability, regional calendars, and project calendar will be the main scheduling parameters.

It should be expected that all planning guides will be completed within the first 10 months of the contract period. Post workshop communication with EWG/STARRS and participants should be anticipated in order to accurately develop the guides. In-person meetings or webinars hosted by the Consultant are acceptable and should be outlined in the proposal. If webinars are used, local feedback during the webinar is a condition of use.

The Consultant will use facilitated workshops to engage front line responders in CCTA scenarios to develop the following guides utilizing the expected number of workshops:

1. CCTA Operational Guide - Law Enforcement (3 workshops)

2. CCTA Operational Guide – Special Weapons And Tactics (SWAT) + Bomb & Arson Team (1)

3. CCTA Operational Guide – EMS (2)

4. CCTA Operational Guide - Fire Response (1)

5. CCTA Operational Guide – Command & Control (1)

6. Regional Force Protection Guide (2)

The CCTA guides should be simple to use for front line responders and are necessary due to the infrequent nature of responding to a complex attack or incidents of similar nature. Checklists should be prominent. The guides will be used primarily as training tools, although they should be formatted for ease of use in the field. All guides will support the more comprehensive CCTA Response Plan.
II. Scope of Work

Key pieces of information the guides are expected to contain are:

1) Decision matrices or process to assign special resources, such as bomb and arson teams, air support, and hazardous materials teams.

2) Field guides and checklists that can be used by tactical response units.

3) Integration of multiple agencies, including initial responders with specialized teams.

4) Force Protection considerations.

CCTA Operations Guide for Law Enforcement:

1. Intelligence sharing (sending and receiving) with the St. Louis Fusion Center and dispatch centers to establish common operating picture and resource needs.

2. Establishing a perimeter during a complex attack.

3. Identifying and cordonning secondary and tertiary explosive devices and/or assailants.

Special Weapons and Tactics (SWAT) and Bomb & Arson:

1. Integrating tactical teams from multiple agencies, including MO and IL.

2. Communication methods to/from EMS and Fire as it relates to Civilian Casualty Care.

3. Tactical support for fire as a weapon.

CCTA Operations Guide Emergency Medical Services (EMS):

1. A guide for regional EMS response and integration that addresses both Illinois and Missouri medical protocols across agencies to a complex attack or other hostile incident, with the goal of providing emergency medical care in a hostile environment as quickly as possible.

2. Integration of Civilian Casualty Care protocols.

3. Use of tactical medics from multiple agencies.

CCTA Operations Guide Fire Response:

1. Communicating fire as a weapon to other responders.

2. Fire service support of SWAT, Bomb & Arson, and EMS in an active incident.

CCTA Operational Guide – Command & Control:

1. Incident Command System (ICS) management for multi-discipline response with law enforcement as lead response discipline.
II. Scope of Work

2. Intelligence sharing to Fusion Center and other on-scene responders.

3. Public Information and Warning.

4. Area command guidance decision tree.

**Regional Force Protection Guide:**

1. Develop force protection protocols. Include force protection needs by discipline to include law enforcement, fire, EMS, non-government organization response, and civilian responders. Account for a variety of potential threats, including fire as a weapon.

2. A process for identifying response agencies’ force protection needs and protection capabilities from law enforcement, EMS, fire, and other response support.

**Task 2 Deliverables:**

1. Draft outline of format for guides at least 20 days prior to first workshop.

2. Agenda and facilitator’s script or points for discussion at least five (5) days prior to workshop.

3. Sign in sheets depicting participant name, title, agency, and at least one method of contact (prefer email). Flip charts, if used, will be converted into notes/minutes. Participants’ suggestions about improving processes and policies should be included in the minutes. Consultant’s recommendations for improvement to the guides will be summarized and included with each workshop’s report. All workshop documents will be provided to EWG and the STARRS project manager within 15 working days of the workshop.

4. CCTA Operational Guide - Law Enforcement

5. CCTA Operational Guide – SWAT + Bomb & Arson Team

6. CCTA Operational Guide – EMS

7. CCTA Operational Guide - Fire Response

8. CCTA Operational Guide – Command & Control

9. Regional Force Protection Guide

10. Consultant should anticipate printing enough guides to accommodate participants in each training.
II. Scope of Work

Task 3 – Training Workshops on Operational Guides:

Each of the operational guides will be delivered in a scenario based training workshops in a tabletop format which will allow for education and orientation of the guide. The orientation will include reviewing the likely triggers for use, pertinent guide information, and discipline interactions during the CCTA incident. The exercise will provide the opportunity to use decision trees and other guide components during a facilitated CCTA response scenario. Multiple “rounds” of the exercise may be necessary to adequately engage the participants. A single orientation and workshop will likely total 6-8 hours with attendance of 30-40 participants. Attendees will be cross disciplined in order to appropriately respond to questions and training workshop interactions.

Training workshops on operational guides should be completed no later than 90 days after completion and approval of the respective operational guide completed in Task 2.

The type and number of CCTA operational guide sessions are:

1. CCTA Operational Guide - Law Enforcement (1)
2. CCTA Operational Guide – SWAT + Bomb & Arson Team (1)
3. CCTA Operational Guide – EMS (1)
4. CCTA Operational Guide - Fire Response (1)
5. CCTA Operational Guide – Command & Control (1)
6. Regional Force Protection Plan (2)

A summary of each training workshop will be submitted no greater than 15 days after each workshop. The summary shall identify strengths in communication, collaboration, policies, or methods used in the response. Additionally, areas for improvement in communication, collaboration, policies, or methods shall be identified. The summary should be presented utilizing FEMA HSEEP AAR/IP templates or similar agreed upon format.

Task 3 Deliverables:

1. Five (5) scenario based training workshops based on the operational guidelines developed for law enforcement, SWAT + Bomb & Arson Team, EMS, Fire Response, Command and Control, and Regional Force Protection.

2. Agenda and facilitator’s script or points for discussion at least five (5) days prior to workshop.

3. Sign in sheets depicting participant name, title, agency, and at least one method of contact (prefer email). Flip charts, if used, will be converted into notes/minutes. Participant feedback will be summarized in the AAR.
4. After Action Reports for training workshops will be based on FEMA HSEEP or an agreed upon format. All workshop documents will be provided to EWG and the STARRS project manager within 15 working days of the workshop.

Task 4 – River Response Workshops (2):

The breadth of potential components during a CTTA are significant for the St. Louis region. Because a significant amount of chemical, agricultural, and tour boat traffic is on the Mississippi and Missouri Rivers, two (2) Tactical Response on Water scenario based workshops will be necessary to inform the Regional CTTA Plan. Although no specific guide for water response will be developed, the same format used for the operational guide workshops should be implemented. The information gathered from the Tactical Response on Water workshops may inform and/or be included in a response guide. Two (2) workshops will include multiple disciplines from Missouri and Illinois along with Federal agencies. All facilitator and participant information and or materials will be provided to STARRS/EWG at least five (5) working days prior to the workshops. A summary of each workshop will be submitted no greater than 15 days after each workshop. The summary shall identify strengths in communication, collaboration, policies, or methods used in the response. Additionally, areas for improvement in communication, collaboration, policies, or methods shall be identified. The summary should be presented utilizing FEMA HSEEP AAR/IP templates or similar agreed upon format.

Task 4 Deliverables:

1. Two (2) facilitated river response scenario based workshops.

2. Agenda and facilitator’s script or points for discussion at least five (5) days prior to workshop.

3. Sign in sheets depicting participant name, title, agency, and at least one method of contact (prefer email). Flip charts, if used, will be converted into notes/minutes. Participants’ suggestions about improving processes and policies should be included in the minutes. Consultant’s recommendations for improvement to the guides will be summarized and included with each workshop’s report.

4. Workshop After Action Reports will be based on FEMA HSEEP or an agreed upon format. All workshop documents will be provided to EWG and the STARRS project manager within 15 working days of the workshop.

Task 5 – Response Drills (4):

Integrating the various agencies and guides, four (4) response drills will be developed and facilitated by the consultant. New concepts or approaches identified in the guides should be focused on. Integrating components from SWAT, Bomb Squad, Law Enforcement, EMS, and Fire during initial response assessment and communications. The drills will be the full scale activities testing the guides developed in Task 2. The information gained will support components of the CTTA Response Plan. All facilitator and participant information will be provided to STARRS/EWG at least 10 working days prior to the drills. Each drill should be approximately 4 hours total and include introduction and safety briefing, activity to achieve objectives, wrap-up and brief out. A summary of each drill will be submitted no greater than 15
II. Scope of Work

The summary shall identify strengths in communication, collaboration, policies, or methods used in the response. Additionally, areas for improvement in communication, collaboration, policies, or methods shall be identified. The summary should be presented utilizing FEMA HSEEP AAR/IP templates or similar agreed upon format.

Task 5 Deliverables:

1. Four (4) CCTA scenario based response drills on the operational guidelines developed for law enforcement, SWAT + Bomb & Arson Team, EMS, Fire Response, Command and Control, and Regional Force Protection.

2. Agenda and facilitator’s script or points for discussion at least five (5) days prior to drills.

3. Sign in sheets depicting participant name, title, agency, and at least one method of contact (prefer email). Flip charts, if used, will be converted into notes/minutes. Participant feedback will be summarized in the AAR.

4. After Action Reports for drills will be based on FEMA HSEEP or an agreed upon format. All workshop documents will be provided to EWG and the STARRS project manager within 15 working days of the workshop.

Task 6 - Regional CCTA Response Plan:

The goal of the plan is that the St. Louis region has a coordinated, unified approach to responding to CCTA incidents guided by a Regional CCTA Response Plan. The Consultant will develop a regional CCTA Response Plan using the guides developed in Task 2, updated and informed by Task 3, Task 4, and Task 5. As necessary for clarity or details, the Consultant will actively engage appropriate partners, including critical infrastructure security personnel, federal partners, law enforcement, fire, and EMS agencies while developing the CCTA response plan. The Plan will provide information in greater detail than the Operation Guides and include Memorandums of Understanding (or at minimum reference and location of MOUs/OAs), position checklists, resource allocation decision matrices, public information and warning materials, Joint Information System responsibilities, intelligence sharing, and forms necessary to support operations in the field and coordination centers.

The draft CCTA Response Plan will be provided to EWG/STARRS and the CCTA workgroup for comment, allowing 12 work days for comments/recommendations to the Consultant. Edits informed by the CCTA workgroup will be agreed upon between EWG/STARRS and the Consultant over the course of the following week, and prior to a final CCTA Response Plan presentation. The final CCTA Response Plan will presented to the CCTA workgroup during an in-person (included in Task 1 total) meeting and prior to the response drills.

4. In-person meeting to present CCTA Response Plan to regional responders and stakeholders. The presentation should include a walk-through of the Plan with focus on CCTA incident escalation decision points, integration of field guides, and checklists.

5. Five (5) printed copies of the CCTA must be provided to EWG/STARRS staff.

Task 7 - Fusion Center Tabletops (2):

Two separate table top exercises will be facilitated focusing on the intelligence and information sharing during a CCTA incident to and from the St. Louis Fusion Center. For planning purposes, one of the exercises should be planned 120-180 days after contract period begins. The second exercise must be 150-210 days after the initial exercise. Development of the exercises will include members from the St. Louis Fusion Center, local law enforcement, EMS, fire, and hospitals. Participants will include similar representatives. No less than two (2) planning meetings per tabletop, held in person (preferred) or via webinar, should be held in order to adequately prepare for the exercises. Meeting notes from the planning meetings should be provided to EWG/STARRS no later than 10 work days after each planning meeting. All facilitator and participant information and or materials will be provided to STARRS/EWG at least 10 working days prior to the exercise. A summary of each tabletop exercise will be submitted no greater than 30 days after the exercise. The summary shall identify strengths in communication, collaboration, policies, or methods used in information sharing with the Fusion Center. Additionally, areas for improvement in communication, collaboration, policies, or methods shall be identified. The summary should be presented utilizing FEMA HSEEP AAR/IP templates or similar agreed upon format.

Task 7 Deliverables:

1. Two facilitated tabletop exercises.

5. Sign in sheets depicting participant name, title, agency, and at least one method of contact (prefer email). Flip charts, if used, will be converted into notes/minutes. Participants’ suggestions about improving processes and policies should be included in the minutes.
II. Scope of Work

Consultant’s recommendations for improvement to the guides will be summarized and included with each exercise report.

6. Exercise After Action Reports will be based on FEMA HSEEP or an agreed upon format. All documents will be provided to EWG and the STARRS project manager within 15 working days of each exercise.

Task 8- Public Information Exercise (1):

A functional exercise will be facilitated focusing on the release of coordinated public information across multiple disciplines and by multiple methods utilizing a joint information system methodology as it pertains to responding to a complex coordinated terrorist attack. Participants will be determined by the CCTA working group, STARRS staff, and input of the CCTA Consultant. Participants will be from at least: law enforcement, fire, EMS, emergency management, county/municipal executive offices, hospitals, public health, FBI, and other regional partners. No less than two (2) planning meetings per tabletop, held in person (preferred) or via webinar, should be held in order to adequately prepare for the exercises. All facilitator and participant information and or materials will be provided to STARRS/EWG at least 10 working days prior to the exercise. 4. Sign in sheets depicting participant name, title, agency, and at least one method of contact (prefer email). Flip charts, if used, will be converted into notes/minutes. Participants’ suggestions about improving processes and policies should be included in the minutes. Consultant’s recommendations for improvement to the guides will be summarized and included with each exercise report.

5. Exercise After Action Reports will be based on FEMA HSEEP or an agreed upon format. All documents will be provided to EWG and the STARRS project manager within 30 days of exercise.
**II. Scope of Work**

---

**Task 9 - CCTA Capstone Exercise (1) – Functional:**

A CCTA Capstone Exercise will be conducted no later than 60 days prior to the end of the CCTA Consultant’s period of performance. All facilitator and participant information and/or materials will be provided to STARRS/EWG at least 10 working days prior to the exercise. Simulated social media or other electronic messaging should be an interactive component of the exercise. A description of the type(s) of electronic simulation materials provided by the Consultant should be included in the proposal.

The exercise will be held in two (2), simultaneous locations within the STARRS region. One location will be in Missouri and the other location in Illinois. Both locations will be facilitated in person by the Consultant. The exercise will begin with a single incident response and progress into a complex coordinated attack. The functional exercise will have participants make decisions and operationalize a response, communicating with the other exercise location as necessary. As a functional exercise, the two locations will interact with one another by typical response communications. Although participant activities will match those of a full scale exercise, actual movement of resources will not be employed.

Number of participants at each location will be approximately 50. Duration of the exercise, including participant briefings and hot wash, should be 6-8 hours in duration in order to achieve the exercise objectives.

The Consultant will direct the concepts and objectives, initial, mid, and final planning meetings for the exercise. The initial and final planning meetings should be held in person (in addition to Task 1 in-person meetings). The concepts and objectives and mid planning meetings can be held through a webinar so long as local feedback to the Consultant is available during the meetings.

The Consultant will provide a lead site evaluator at each of the two exercise locations. The lead site evaluators will provide any training necessary for local evaluators to accurately evaluate and document the exercise according to the exercise plan. All evaluator documentation will be provided to STARRS/EWG as part of the exercise summary materials. Feedback from participants regarding both exercise design/participation and areas for improvement on exercised objectives will be the responsibility of the Consultant. A summary of participants’ feedback will accompany exercise documentation and inform the improvement plan.

A summary of the exercise will be submitted no greater than 30 days after the exercise. The summary shall identify strengths in communication, collaboration, use of CCTA guides/plan, and Fusion Center integration. Additionally, areas for improvement in communication, collaboration, use of CCTA guides/plan, and Fusion Center integration shall be identified. The summary should be presented utilizing FEMA HSEEP AAR/IP templates or similar agreed upon format.

**Task 9 Deliverables:**

1. Functional, dual location, exercise based on a CCTA scenario.

2. Minimum four (4) planning meetings. Meeting notes from the planning meeting should be provided to EWG/STARRS no later than 10 work days after planning meeting.

3. Agenda, Exercise Plan, Participant guide with feedback form, evaluator guide, facilitator’s script or points for discussion (if needed) at least five (5) days prior to exercise.
II. Scope of Work

4. Sign in sheets depicting participant name, title, agency, and at least one method of contact (prefer email). Flip charts, if used, will be converted into notes/minutes. Participants’ suggestions about improving processes and policies should be included in the minutes. Consultant’s recommendations for improvement to the guides will be summarized and included with each exercise report.

5. A hot wash immediately following the exercise with appropriate documentation.

6. Exercise After Action Reports will be based on FEMA HSEEP or an agreed upon format. All documents will be provided to EWG and the STARRS project manager within 30 days of exercise.

Project Schedule:

Responding firms should be aware that this project must be completed in strict adherence to the schedule approved by the Council. The Council anticipates that the project will be completed within 25 months from the project start date (anticipated to be June 1, 2018). Each firm responding to this request for proposal must include in its submittal a recommended project schedule that, at a minimum, outlines the major milestones for the project, when those milestones will be completed, including final delivery of the work products. The final project schedule will be approved by the Council. Submittals that do not contain a project schedule may be deemed non-responsive and rejected. Note that a firm’s proposed project schedule must include both the base contract tasks and any optional tasks. All Consultant documents will be completed and submitted to EWG/STARRS no later than June 30, 2020. Final billing will occur no later than July 20, 2020.

All deliverables must first be provided in “Draft” form to allow for comments. Changes must be incorporated into the final documents. Two (1) printed and bound (binder) copy and two (2) flash drives containing Microsoft Word or other agreed upon format of all documents stated in the scope of work must be made available at the end of the contract. All documents during the project will be provided in an editable format utilizing Microsoft programs or other agreed upon formats.

Optional Tasks: (should funding be available)

Additional Exercises:

There is a desire for additional components for the CCTA Consultant to accomplish should funding be available. The following exercises are requested as supplemental and should be priced individually. If funding is determined to be available, one or more of the additional exercises will be included in the overall scope of work for the Consultant. These exercise would be performed prior to the Task 9 CCTA Capstone Exercise.

Because of the strict CCTA grant program funding period, no additional extensions of time can be allocated should any of the additional exercises be included in the original scope of work.

I. Intelligence Sharing - Functional
Testing: Process of intelligence and information flow during prevention, protection, and response activities.
II. Scope of Work

Activity: Two separate functional exercises engaging the St. Louis Fusion Center and front line responders. Intelligence information will be forwarded to the St. Louis Fusion Center and processed. The St. Louis Fusion Center will then prepare and share intelligence of the incident to on scene responders in a method that can inform response planning.

Objectives: The St. Louis Fusion Center will process intelligence from an active incident and provide actionable intelligence within the requested timeframe to responders for planning purposes.

Desired Outcomes: Front line responders from multiple disciplines will understand how to provide intelligence to the St. Louis Fusion Center during a response in a method that could be helpful, once analyzed, for planning purposes. Ideally, the use of the St. Louis Fusion Center will become a regular tool during a response, as well as being used in prevention and protection activities.

II. Area Command Coordination – Functional Testing: Establishing Area Command in the St. Louis Region

Activity: Functional Exercise designed to move command from individual incident command (single scene) to area command (multiple scene-CCTA). Exercise will include commanders from fire, law enforcement, EMS, St. Louis Fusion Center, multiple dispatch agencies, and other community partners.

Objectives: Upon learning about multiple incidents that are human caused or potentially human caused, single scene incident command will progress into an area command structure to improve resource allocation and life safety activities.

Desired Outcomes: Various disciplines will recognize the importance of early establishment of an area command structure and will promote its use regularly.

B. Content

All of the items listed below must be addressed and included in each submittal. **If all of these items are not provided in a firm’s submittal, then the Council may deem the firm’s submittal non-responsive and may not evaluate the submittal.**

The Council reserves the right to waive minor errors, omissions, or technicalities as determined to be in the best interest of the Council and that do not impede the Council’s ability to evaluate a responding firm’s quality of work, experience, or capability to perform the requested work.

In addition to the items noted below, each firm should ensure that its submittal provides any information that will be relevant to the evaluation process (see Section IV).

*Sub-Part 1 – Approach & Qualifications*

1. **Letter of Interest.** This letter must summarize the firm’s approach to the project and describe how the firm is particularly qualified to complete the work described in Section II. The letter must also commit the submittal for a minimum of 90 calendar days and be signed by a firm principal. The letter must include the name, phone number, and e-mail address of the person who the Council should contact in the event that questions arise regarding the firm’s submittal.

2. **Project Approach.** The general scope of work for the project has been developed by the Council’s staff and is provided in Section II. Each firm’s submittal must include further detail about the specific methodology or approach that the firm intends to use to complete the project. Specifically, the description should, at a minimum, address each task listed in Section II and the following:

   (a) The firm’s approach, including project management, and how this approach will benefit the Council and allow the Council to accomplish its goals for the project.

   (b) Any unique methods that the firm may employ to complete the project and why these methods are particularly well-suited to the project.
III. Submittal Requirements

(c) A proposed project schedule (see Section II, Part C).

3. **Qualifications.** Each submittal must indicate the qualifications of the responding firm as it relates to the services requested in this RFP. The qualifications should be described in a brief narrative regarding the firm’s capabilities to carry out the project, including special assets, areas of expertise, analytical tools, or data sources to which the firm has access. The qualification summary must also include the following:

(a) **Experience Summaries** – For each key person that will be assigned to the project, the submittal must include an experience summary. The summary should clearly identify the key person’s prior experience on similar projects, in similar roles, and outline the responsibilities the person will have in the context of the Council’s project. An experience summary must be provided for the following key personnel, as applicable:
   - Account management personnel
   - Project management
   - Personnel with specialized experience needed to complete the work

   *Full resumes may be included as an attachment to the submittal.*

(c) **Addresses** – The address of the office in which each key person currently works.

---

**Changes to Key Personnel** – By responding to this RFP, a firm agrees that the key personnel that the firm identifies in its submittal will be available for the entirety of the project, throughout the term of the contract, as long as that individual is employed by the responding firm or unless the Council agrees to a change in key personnel.

(d) **Prior Work Experience** – Each submittal must include a description of no less than 3 projects similar in type and scope to the project described in this RFP. The projects described in the submittal must have been undertaken by the responding firm within the previous 4 years. In addition, for each project described, the submittal must include all of the following information:

(i) Project name and location.

(ii) Client point of contact to include: name, phone number, and e-mail address.

(iii) Brief project description.

(iv) Completion date for both: scheduled completion date and actual completion date.

(v) Budget information for both: initial project budget and the final project expenditures.
(vi) If applicable, an explanation for any deviations in project completion dates or any deviations in the project budget.

Note that the Council understands that, due to confidentiality agreements, some of the above information may be considered confidential; therefore, the Council does not expect firms to provide any confidential information in response to this Section III, Sub-Part 1, #3(d). However, to the extent possible, firms should avoid using project descriptions from those clients that restrict information sharing. If this cannot be avoided, then a responding firm must provide as much non-confidential information as possible. The information provided must allow the Council to determine that the firm’s projects meets the requirements described in Section III, Sub-Part 1, #3(d) and that the firm has a history of completing its projects on time and within budget. Responding firms should be aware that if the Council is not provided sufficient information, then the firm’s submittal may be deemed non-responsive and rejected.

(e) Work Sample(s) – Each responding firm must submit 10 printed and bound copies and 1 electronic copy of at least 1 work sample that includes: similar planning, training and exercise projects that the responding firm has produced for other clients in the previous 2 years.

Each firm must submit its price proposal using Attachment A – Price Proposal (Attachment A). Attachment A is available in *.xlsx format on the Council’s website. This spreadsheet may only be modified as noted in the file.

The Council reserves the right to reject, as non-responsive, submittals that do not include:

- Attachment A in the required format
- All of the information requested in Attachment A
- A price for each component of the project, including any optional services (if applicable)
- Pricing information for subcontractors

The Council reserves the right to select any portion of the proposed services, only the optional services, or any combination of the offered / optional services and the final project costs will be determined based upon the services selected.

Sub-Part 3 – Firm Responsibility Information
III. Submittal Requirements

Each responding firm must provide in its submittal a signed Attachment B – *Firm Responsibility Information* (Attachment B). This information will be used during Step 1 of the evaluation process and may be provided to the selection committee during other stages of the evaluation process. A submittal that does not include the information necessary for the Council to make its determination regarding a firm’s responsibility may result in the Council determining that the responding firm is not responsible and, therefore, is ineligible to be awarded a contract for the project.

Attachment B includes several forms, as follows:

1. Corporate Profile
2. Financial & Resource Capacity
   (a) Time Availability for Key Personnel
3. Insurance Coverage
4. Legal Proceedings
5. Statement of Past Performance
6. Conflicts of Interest Questionnaire & Disclosure Statement
7. Certification Regarding Debarment and Suspension

Each form in Attachment B must be completed in its entirety. A responding firm is not permitted to substitute its own format or information for the forms included in Attachment B.

The Council does not expect a responding firm to provide any confidential or proprietary information on any form contained in Attachment B; however, the Council does expect a responding firm to provide sufficient information that the Council can use to make a responsibility determination.

Responding firms should be aware that the Council may deem a firm’s submittal non-responsive and reject the submittal for: (1) failure to sign Attachment B; (2) failure to provide all of the information requested in Attachment B; or (3) failure to provide sufficient information for the Council to make a responsibility determination. The Council reserves the right to waive minor errors, omissions, or technicalities in Attachment B as determined to be in the best interest of the Council.

Additional instructions are provided in Attachment B.

**Sub-Part 4 – Other Forms & Certifications**

1. **Affirmative Action Checklist.** Each responding firm must complete and submit Attachment C – *Affirmative Action Checklist*.

2. **Contract Terms & Conditions.** The draft contract terms and conditions are provided in Appendix 1. These terms will govern the project and may change if circumstances warrant it; however, any terms required by state or federal rules, regulations, or statutes or by the Council’s agreement with a funding agency, are non-negotiable and are not subject to change. Each responding firm must review the terms and complete, sign, and submit Attachment D – *Contract*.
III. Submittal Requirements

Terms & Conditions Comments, which will notify the Council of the firm’s questions or concerns about the contract terms and conditions.

Please note that certain appendices referred to in Appendix 1 (e.g. Appendix I (Scope of Work) and Appendix II (Milestone Payment Schedule)) will not be included in Appendix 1 because these appendices are developed by the Council and the Consultant during contract negotiations.

4. D/S/W/MBE Participation. The Council encourages D/S/W/MBE participation. D/S/W/MBE includes: disadvantaged, small, women-owned, and minority business enterprises. Please refer to Section VII for more information about what constitutes a certified D/S/W/MBE. In order to document the D/S/W/MBE participation for the project, each responding firm must submit the following, as applicable:

(a) No D/S/W/MBE Participation – If the D/S/W/MBE participation for the project is 0%, the submittal must include a statement that there is no D/S/W/MBE participation for the project.

(b) Some D/S/W/MBE Participation – If the responding firm is a D/S/W/MBE or intends to hire / has hired a D/S/W/MBE to perform work for the project, then the submittal must include each of the following:

(i) Attachment F – D/S/W/MBE Participation Form.

(ii) Attachment G – Letter of Intent to Perform as a D/S/W/MBE for each certified D/S/W/MBE.

5. Lobbying Certification. Each responding firm must complete, sign, and submit Attachment H – Certification Regarding Lobbying. This certification will also be included as part of any contract that is awarded for the project.
The Council’s selection of a firm to provide the services described in this RFP will be conducted in accordance with the Council’s purchasing policies and procedures. Unless otherwise noted in this RFP, the Council will open and review each submittal that the Council received by the deadline described in Section IX, Part C. Each submittal will be evaluated according to the steps and criterion listed in this Section IV.

Upon successful selection approval, the Council will make the contract award to a responsible firm which provided a submittal that is most advantageous to the Council. The Council reserves the right to select a firm other than the one that offered the lowest proposed price or to select a firm other than the one with the highest rank (i.e. #1) if doing so would be in the best interest of the Council. The Council also reserves the right to make a selection for the project based solely on the information contained in the submittal and without conducting any discussions with any firm. If the Council decides to conduct discussions, it will proceed as described below.

**Discussions and Clarifications**

At its option, and if the Council determines that it is in its best interest, the Council may conduct additional discussions with any firm at any time prior to making a final selection. These discussions may pertain, but are not limited to: clarifying information contained in the firm’s submittal or provided by the firm to the Council, clarifying information contained in the solicitation documents, obtaining additional information from the firm, negotiating the scope of work / submittal, permitting a firm to modify its submittal, etc. As part of this process, the Council may elect to conduct oral discussions, request more information, and request presentations concerning the firm’s project approach and its ability to meet the project’s requirements, including the budget. In general, the Council will conduct these discussions with a firm that is in the “competitive range.” Competitive range means that the firm has a reasonable chance of being selected for the contract award, when relevant factors are considered (i.e. price, other evaluation / selection factors, etc.); however, the Council may choose to conduct these discussions with all firms that provided a submittal or only those firms that were deemed responsible and that provided a responsive submittal.

If these discussions lead the Council to determine that the solicitation documents were unclear or otherwise deficient and need to be modified, then the Council will follow the procedures described in Section V, Part I.

**A. Step 1 – Responsiveness / Firm Responsibility**

During Step 1 of the evaluation process, the Council will review a submittal to ensure that it meets all of the minimum RFP requirements and that the responding firm is responsible. Each factor is described in more detail below. No points are assigned during this step of the evaluation process. Rather, the Council reviews the submittal and assigns either a “yes” or a “no” for each item of information reviewed.

1. **Responsiveness.** In order to be deemed responsive, a submittal must meet all of the minimum RFP requirements, as these requirements are described in Section III. A submittal that does not meet the minimum RFP requirements may be rejected as non-responsive and may not continue to future steps of the evaluation and selection process. The Council reserves the right to waive
minor errors, omissions, or technicalities as determined to be in the best interest of the Council and that do not impede the Council’s ability to evaluate a responding firm’s quality of work, experience, or capability to perform the requested work.

2. **Firm Responsibility.** The Council will not award a contract for the project to a firm that the Council’s determines is not responsible. For each responsive submittal, the Council will conduct a review of the firm’s responsibility. The Council may make its determination regarding firm responsibility based upon the responding firm’s submittal, reference evaluations, a review of the firm’s financial situation, and any other information the Council requests or determines is relevant to its determination. Many of the factors described in this Section IV, Part A, #2 may also be used in the next steps of the evaluation process. A submittal that does not include the information necessary for the Council to make its determination regarding firm responsibility may result in the Council determining that the responding firm is not responsible and, therefore, ineligible to be awarded a contract for the project.

(a) **Definition** – A “responsible” firm is one that:

(i) does not have any corporate, legal, or financial barriers to successful performance,

(ii) has, or has the ability to obtain, the financial and resource capacity to successfully complete the work described in this RFP within the estimated performance period,

(iii) has a satisfactory performance record, and

(iv) is not currently suspended or debarred or is not currently being considered for suspension or debarment.

(b) **Factors** – The Council’s determination of firm responsibility may include an evaluation of the following factors:

(i) The firm’s corporate profile. Does the submittal provide a clear description of the firm and demonstrate that the firm has stability and the organizational controls necessary to perform all of the services throughout the entire contract period?

(ii) The firm’s current financial and resource capacity. Does the submittal indicate that the firm has the necessary financial strength and resources (i.e. staff, facilities, etc.) or the ability to obtain the resources needed to successfully complete the project?

(iii) The firm’s past performance and record of integrity and business ethics. Does the submittal indicate that the firm has a history of successful performance, no history of violating laws, regulations, or rules, and no history of a lack of integrity or business ethics?

(iv) The firm’s status regarding suspension or debarment? Is the firm currently suspended or debarred by any state or federal authority? Is the firm currently being considered for suspension or debarment by any state or federal authority?
B. **Step 2 – Submittal Evaluation**

A selection committee will evaluate each submittal that is deemed to be responsive and that is deemed to be from a responsible firm. The selection committee’s evaluation will be conducted using the scoring and ranking processes described below.

**Sub-Part 1 – Scoring Process**

Each submittal will be evaluated and assigned point values as indicated in Sub-Part 4 below. Based on the outcome of the computations performed, each firm will receive a total score from each member of the selection committee.

**Sub-Part 2 – Ranking Process**

After each selection committee member has independently scored each submittal, the committee will discuss each firm’s submittal, any additional information obtained by the Council or from Step 3, and the individual scores. Based on these discussions, the selection committee will, as a group, rank the firms based on a consensus of the committee members.

**Sub-Part 3 – Short Listing Process (Optional)**

If the Council determines that interviews are necessary, the Council will create a “short-list” of firms. The Council will create this short-list from the highest ranking firms. The short-listed firms will continue to Step 4 of the evaluation process. Those firms that are not short-listed will not be invited for interviews or selected for contract award. The Council is in no way required to create a short-list or to select a certain minimum or maximum number of firms for a short-list.

If the Council determines that interviews are not necessary, then the evaluation process will proceed directly to Step 5. At its option, the Council may proceed from Step 2 to Step 4 and not conduct Step 3 of the evaluation process.

**Sub-Part 4 – Scoring Criteria**

1. **Qualifications & Experience (35 points).** The qualifications and experience of the firm and the key personnel assigned to the project. The factors that the selection committee may consider include, but are not limited to:

   - The D/S/W/MBEs included on the project team have the experience necessary to complete the work that the responding firm has assigned to the D/S/W/MBE

---

**C. Step 3 – Reference Checks (Optional)**

The Council may elect to contact the references of the top-ranked or short-listed firms. The reference check process, if conducted, will proceed as follows:

1. **Reference Check Forms.** Each reference will be sent a reference check form via e-mail. The reference will be provided the option to provide a reference in one of two ways: (a) complete the form and return it via e-mail or fax; or (b) complete the form over the phone.
IV. Evaluation & Selection Procedures

2. **Deadline.** Each reference will be provided a deadline by which he / she must return the completed reference check form or provide a reference over the phone. In the event that a firm’s reference does not meet the deadline, the Council may, at its option, contact the responding firm to obtain an alternate reference.

3. **Results.** No points will be assigned to a firm based upon the reference checks. The reference check forms will be provided to the selection committee to use during Step 4 of the evaluation process. Even if no interviews are conducted, the Council may determine that reference checks will be conducted and the reference check results may be used by the Council or the selection committee to determine the final firm ranking (see Steps 2 and 5).

D. **Step 4 – Interviews (Optional)**

At its option, the Council may invite the short-listed firms to attend an oral interview. The Council will notify each short-listed firm that it has been selected for an interview. The selection committee will evaluate each firm as described below.

**Sub-Part 1 – Scoring Process**

Each firm will be evaluated and assigned point values as indicated in Sub-Part 2 below. Based on the outcome of the computations performed, each firm will receive a total score from each member of the selection committee.

**Sub-Part 2 – Scoring Criteria**

1. **Qualifications & Experience (25 points).** The qualifications and experience of the firm and the key personnel assigned to the project. The factors that the selection committee may consider include, but are not limited to:
   - The qualifications of the firm, the subcontractors, and the key personnel assigned to the project
   - The firm’s, the subcontractors’, and the key personnel’s prior experience performing work similar to the work described in Section II
   - The firm’s experience working with governmental entities similar to the Council

2. **Project Understanding (25 points).** The firm’s understanding of the project requirements, scope of work, and any conditions that may affect the project. The factors that the selection committee may consider include, but are not limited to:
   - The firm provided a clear and concise proposal that demonstrates that the firm understands the scope of work and the Council’s goals for the project
   - The firm’s proposal demonstrates a thorough approach or methodology for providing the requested services
   - The firm and the key personnel are familiar with the Council and its mission / purpose, the project area, any local / regional conditions that may affect the project, and the stakeholders and other constituents that will be affected by the project
IV. Evaluation & Selection Procedures

E. Step 5 – Final Firm Ranking

1. Post-Interview Final Ranking. If interviews are conducted, then, at the conclusion of Steps 1 through 4 of the evaluation process, the selection committee will develop a final ranking of the firms based on a consensus of the committee members using the information obtained throughout the evaluation process. The Council will note each firm’s rank on a Firm Selection Form according to the final firm ranking determined by the selection committee (e.g. 1, 2, 3, 4).

2. No Interviews Conducted. If the Council does not conduct interviews, then the final firm ranking will be the selection committee’s consensus ranking that was established during Step 2. The Council will note each firm’s rank on a Firm Selection Form.

F. Step 6 – Selection & Negotiations

The final selection and contract award process will proceed as described below. The award process is considered open and on-going until all final negotiations have concluded.

1. Board Approval. After the conclusion of Step 5 and any other discussions / negotiations with the firm, the firm that provided a submittal that is most advantageous to the Council will be recommended to the Council’s Board of Directors for contract award and approval of the contract price (this may be a firm that did not receive the highest rank after all stages of the evaluation process (i.e. #1) if it is in the best interest of the Council). If the Board of Directors approves the selection recommendation and contract price, then the Council can begin negotiations with the selected firm.

2. Firm Notifications. Once the Board of Directors has approved the selection recommendation and contract price, the Council will notify the selected firm that it has been awarded the contract. The Council may notify the unsuccessful firms of the results at any time after the Board of Directors has approved the selection recommendation and contract price. The Council may, at its option, elect to notify unsuccessful firms only after all negotiations have been concluded and a contract has been executed.

3. Contract Negotiations. The Council may negotiate the contract terms and, at its option, refine the scope of work. As part of the negotiation process, the Council may elect to conduct oral discussions, request clarifications, and request presentations concerning the firm’s project approach and its ability to meet the contract’s requirements. If the Council cannot successfully negotiate a contract with the selected firm, then the Council may formally, and in writing, end all negotiations with the selected firm and may elect to:

   (a) proceed to negotiate with the next available firm in the order of selection ranking until a contract is successfully reached or negotiations with all ranked firms end; or
   (b) close the procurement process without conducting any negotiations with other firms.
During contract negotiations – with the exception of minor elements of cost, changes needed due to scope refinement, or due to good cause, the Council will not negotiate the project cost and the price provided in the selected firm’s final price proposal and approved by the Board of Directors will be the final contract price.
V. General Items

A. Modifications of the Solicitation Documents

During the procurement process (including the evaluation and selection process), if the Council determines that this RFP is unclear, information is missing, or is otherwise deficient, the Council may decide to modify the solicitation documents by issuing an Addendum. In the event the solicitation documents are modified, the Council will determine how the evaluation and selection process will proceed (i.e. revert back to Step 2) and will explain this process in the Addendum document. The Council will notify the appropriate firms (i.e. the highest ranked, those in the competitive range, etc.) and provide instructions on how to provide a modified submittal. The Council is not required to notify any firms that had a submittal that was deemed non-responsive or any firms that were not deemed responsible. The Council is under no obligation to modify the solicitation documents or provide any particular firm an opportunity to change its submittal. At all times, the Council will make its decisions based upon what is in the Council’s best interest.

V. General Items

I. Contract Type

The Council anticipates awarding a single, firm fixed price contract paid based upon milestone completion / delivery of products. The payments issued by the Council under the contract will be for only completed milestones, and, except as stated in Appendix 2, Paragraph 10, Part (c)(vi), payments for partial milestones completed or percent work completed are not authorized.

J. Project Funding

The Council anticipates funding the project using the following sources:

CFDA # 97.133 - Preparing for Emerging Threats and Hazards – Complex Coordinated Terrorist Attack Grant.
VI. Nondiscrimination Requirements

The Consultant shall not discriminate on grounds of the race, color, religion, sex, disability, age, national origin, or ancestry of any individual in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by 6 CFR Part 21 or 44 CFR Subtitle A, Part 7 including employment practices.

These nondiscrimination requirements apply to all solicitations either by competitive bidding or negotiation made by the Consultant for work to be performed under a subcontract, including procurement of materials or equipment. The Consultant shall notify each potential subcontractor or supplier of these requirements relative to nondiscrimination on grounds of the race, color, religion, sex, disability, age, national origin, or ancestry of any individual.
A. The Council’s DBE Program

The East-West Gateway Council of Governments has adopted a Disadvantaged Business Enterprise Program (DBE) to insure that DBEs, which includes small (SBE), women-owned (WBE), minority owned (MBE) (collectively D/S/W/MBE), and other disadvantaged business enterprises, shall have an equal opportunity to participate in Council projects. D/S/W/MBEs are encouraged to provide a submittal as prime contractors for the project. Non-disadvantaged firms are encouraged to use D/S/W/MBEs as subcontractors or form joint ventures on the project. All D/S/W/MBE participation on the project will be governed by the Council’s DBE Program.

B. Definitions

1. Disadvantaged Business. The term "Disadvantaged Business" means a small business concern:
   (a) which is at least 51 percent owned by one or more socially and economically disadvantaged individuals, or, in the case of any publicly owned business, at least 51 percent of the stock is owned by one or more socially and economically disadvantaged individuals; and
   (b) whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

2. Presumption of Disadvantage. Members of the following named groups will be presumed to be both socially and economically disadvantaged by the Council:
   (a) Black Americans,
   (b) Hispanic Americans,
   (c) Native Americans,
   (d) Asian Pacific Americans,
   (e) Asian Indian Americans,
   (f) women (regardless of race, ethnicity or origin), and
   (g) persons certified as socially and economically disadvantaged by the Small Business Administration (SBA) under the SBA Section 8(a) program.

3. Small Business Enterprise. The term “Small Business Enterprise” is defined in accordance with the SBA’s definition, as follows:
   (a) “… a small business concern is one that is independently owned and operated, is organized for profit, and is not dominant in its field. Depending on the industry, size standard eligibility is based on the average number of employees for the preceding twelve months or on sales volume averaged over a three-year period.”
VII. D/S/W/MBE Participation & Equal Opportunity

(b) The Council will use the SBE size standards provided in 13 CFR Part 121 (as it may be amended from time-to-time) to determine a small business enterprise’s eligibility.

C. Certifications

1. **DBE.** In order to be considered a DBE, a firm must be certified and registered as a DBE with the Missouri Department of Transportation. Please refer to the MRCC DBE Directory at: http://www.modot.mo.gov/business/contractor_resources/external_civil_rights/mrcc.htm.

2. **W/MBE.** In order to be considered a WBE or MBE, a firm must be certified and registered with MoDOT or with the Missouri Office of Equal Opportunity (MoOEO).

3. **SBE.** In order to be considered an SBE, a firm must certify that it meets the definition of a small business, as indicated above.

* A D/S/W/MBE may include in its response a copy of its MoDOT, MoOEO, or SBA certification.*

D. DHS Requirements

The Department of Homeland Security has promulgated regulations to ensure that D/S/W/MBEs have an equal opportunity to participate in projects that are wholly or partially funded with DHS grant money. Firms are required to take affirmative steps to ensure that D/S/W/MBEs are used on the project when possible. These affirmative steps include:

1. placing qualified D/S/W/MBEs on solicitation lists for subcontracts or joint ventures;

2. assuring that D/S/W/MBEs are solicited whenever they are potential sources of work or supplies;

3. dividing total project requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by D/S/W/MBEs;

4. establishing delivery schedules, where the RFP permits, which encourage participation by D/S/W/MBEs; and

5. using the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.
In the course of this RFP and the evaluation and selection process, a responding firm (bidder or offeror whose direct economic interest would be affected by the award of the contract) may file a protest when, in the firm’s opinion, actions were taken by the Council’s staff or the selection committee which could unfairly affect the outcome of the evaluation and selection process.

All protests should be in writing and directed to:

Executive Director  
East-West Gateway Council of Governments  
1 S. Memorial Drive, Suite 1600  
St. Louis, MO 63102

Protests should be made immediately upon the occurrence of the incident in question, but no later than three days after the responding firm received notification of the outcome of the evaluation and selection process. The protest should clearly state the grounds for the protest.

Upon receipt of the protest, the Executive Director will review the actual procedures followed during the evaluation and selection process and the documentation available. If it is determined that the action(s) unfairly changed the outcome of the evaluation and selection process, negotiations with the selected firm will cease until the matter is resolved.

written notice specifying the default.

a. **Exception.** Upon Consultant’s fourth (4th) failure to meet a project deadline, the Council may, in its sole discretion, immediately terminate this Agreement without providing Consultant any period to cure the default. This exception applies even if the Council has not previously provided Consultant a written notice of default. “Failure to meet a project deadline” means Consultant does not meet a project deadline and the Council has not provided an express written approval that extends the deadline. The Council’s approval must be provided as stated in Paragraph 9.

2. For a default described in Paragraph 10, Parts (c)(i)(1)(b), Consultant will have a cure period of seven (7) business days (or a longer period as the Council may allow) after Consultant’s receipt from the Council of a written notice specifying the default.

3. For a default described in Paragraph 10, Parts (c)(i)(1)(c) – (g), Consultant will not be provided a cure period, and the Council may, in its sole discretion, immediately terminate this Agreement without any penalty to the Council.

4. **Failure to Cure a Default.** If Consultant fails to cure a default within the cure period specified in Paragraph 10, Parts (c)(ii)(1) – (2), then the Council, in its sole discretion, may immediately terminate this Agreement without any penalty to the Council.

iii. Any termination must be effected by the Council’s delivery to Consultant of a written notice specifying whether termination is for the default of Consultant or for the convenience of the Council and the extent to which the performance of services under this Agreement is terminated (“Termination Notice”). The termination will be effective upon Consultant’s receipt of the Termination Notice. “Receipt” is defined in Paragraph 15, Part (b).

iv. Immediately after receipt of a Termination Notice Consultant shall:

1. stop performance of services under this Agreement to the extent specified in the Termination Notice,
2. place no further subcontracts for services, except as may be necessary for completion of the portion of the services under this Agreement that were not terminated,
3. terminate all subcontracts to the extent that they relate to the performance of the services terminated by the Termination Notice,
4. assign to the Council in the manner and to the extent directed by the Council, all of Consultant’s rights, title, and interest under the subcontracts that Consultant terminated because of the Termination Notice. The Council has the discretion to determine which claims arising

   b. any documents or materials furnished by the Council to Consultant or prepared by the Council for Consultant.

v. After receipt of a Termination Notice, Consultant shall promptly submit to the Council a written claim for amounts due to Consultant (a “Termination Claim”). Consultant shall submit the Termination Claim in the form and with the certification prescribed by the Council. Except as noted in this Paragraph 10, Part (c)(v), Consultant shall submit its Termination Claim to the Council no later than sixty (60) calendar days from the effective date of termination. Consultant may request a longer time period to submit its Termination Claim to the Council. In order to request an extension of the deadline for submitting a Termination Claim, Consultant shall submit a written request to the Council. Consultant’s written request must be submitted to the Council within the original sixty (60) day submission time frame. It is within the Council’s sole discretion whether to approve Consultant’s request for additional time to submit Consultant’s Termination Claim. If the Council determines that the facts justify an extension, it may receive and act upon Consultant’s Termination Claim at any time after the original sixty (60) calendar day submission or any extended submission period that was authorized by the Council.

vi. Consultant’s Termination Claim must be based upon one of the following:

1. In the event of a termination for default, Consultant’s Termination Claim must include all amounts due to Consultant for the milestones completed by Consultant through the effective date of the termination.

2. In the event of a termination for convenience, Consultant’s Termination Claim must include the amount due to Consultant based upon the milestones completed plus an amount for the percentage or proportion of other project milestones that were partially completed through the effective date of the termination.

vii. The Council will pay the Termination Claim in accordance with one of the following:

1. If the Council concurs with the amounts claimed on Consultant’s Termination Claim and the Council has received all Work Products created under this Agreement or that were provided to Consultant by the Council, the Council shall proceed with payment. The Council’s
payment will be deemed the final settlement of all amounts due.

2. If Consultant fails to submit its Termination Claim in the time allowed or fails to submit its Termination Claim with complete information, the Council may determine, based on the available information, the amount due to Consultant because of the termination and will pay to Consultant the amount determined by the Council. The Council’s payment will be deemed the final settlement of all amounts due.

   a. **Conflicts of Interests.**

      i. **Interest of Consultant.** Consultant covenants that it presently has no interest and shall not acquire any interest (direct or indirect) which would conflict in any manner or degree with the services Consultant must perform under this Agreement. In the performance of this Agreement, Consultant will not employ any person having these types of interests. Consultant will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of a personal or organizational conflict of interest or personal gain.

      ii. **Interest of Members of or Delegates to Congress.** Consultant shall not admit any members of or delegates to the Congress of the United States to any share or part of this Agreement or to any benefit arising from this Agreement.

   b. **Gratuities.** If the Council finds that Consultant or any agent or representative of Consultant offered or gave gratuities (in the form of entertainment, gifts or otherwise) to any official, employee or agent of the Council (including the St. Louis Area Regional Response System or “STARs”), FEMA, or DHS and the gratuities were given with a view toward securing a contract or securing favorable treatment with respect to the awarding or amending, or the making of any determination with respect to the performance of this Agreement, then the Council may immediately terminate this Agreement and may pursue other rights and remedies provided by law or under this Agreement. The Council’s finding must be reached after the Council provides notice to Consultant and conducts a hearing on the matter.

12. **Certification.**

   a. **Lobbying Certification.**

   Consultant certifies compliance with 31 U.S.C. § 1352, and implemented at 44 CFR Part 18 covering government-wide restrictions on lobbying, which provides that no federal appropriated funds have been paid or will be paid, by or on behalf of Consultant, to any person for influence or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement and the extension, continuation, renewal, amendment, or modification of any

Any person who fails to file the required certification will be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each failure to file the required certification.

A. Policy & Purpose

Actual and perceived objectivity will be an important part of successfully completing any project for East-West Gateway Council of Governments (the Council) including the St. Louis Area Regional Response System (STARRS). Moreover, the Council is committed to ensuring a fair, competitive procurement process. The Council's policy is to award contracts to only those firms whose objectivity or ability to perform the project work is not impaired because of any prior, present, or planned activities, relationships, contracts, or financial interests. Additionally, the Council must ensure that a firm competing for a contract award does not have or will not gain an unfair competitive advantage due to the firm's prior, present, or planned activities, relationships, contracts, or financial interests.

B. Organizational Conflicts of Interest

1. General

The Council is concerned about organizational conflicts of interest that exist, appear to exist, or may arise in the future with respect to the firms responding to a solicitation (i.e. invitation for bids or a request for proposals or qualifications).

2. Conflicts, Occur When

An organizational conflict of interest can occur when a contractor has activities, relationships, contracts, or financial interests that:

(a) render the contractor unable to provide impartial assistance or advice to the Council,
(b) limit the contractor’s ability to perform its work objectively,
(c) provide the contractor with an unfair competitive advantage, or
(d) appear to do (a), (b), or (c).

3. Prior, Present, or Planned

An organizational conflict of interest can arise due to the contractor's prior, present, or planned activities, relationships, contracts, or financial interests that are directly related to the Council's project. In the context of organizational conflicts of interest, the terms prior, present, or planned have the following meanings:

(a) Prior - Refers to one of two situations:
   (i) those activities, relationships, or contracts that the contractor undertook or financial interests that the firm had within one year preceding the date the solicitation was issued, or
   (ii) those activities, relationships, contracts, or financial interests that were conducted / engaged in as a prior part or phase of the Council’s project no matter when it occurred (i.e. the contractor, under a prior and separate contract, developed specifications for the current project).
(b) Present - Refers to those activities, relationships, or contracts that the contractor is engaged in / committed to or financial interests that the firm had at the time the solicitation was issued or at any time during the procurement / contracting process.
(c) Planned - Refers to those activities, relationships, contracts, or financial interests that the contractor has taken steps towards undertaking / engaging in or intends to undertake / engage in but had not yet initiated at the time the solicitation was issued.

4. Bias and Unfair Competitive Advantage

Organizational conflicts of interest create two issues for the Council: bias and unfair competitive advantage. These terms have the definitions provided in Part B, #4(a).

(a) Definitions.

(i) Bias - Occurs when a contractor’s prior, present, or planned activities, relationships, contracts, or financial interests:
   (1) render the firm unable to provide impartial advice,
   (2) prevent the firm from objectively performing work for the Council, or
   (3) appear to do either of (1) or (2).
Conflicts of Interest Policy
Procurement Process

(i) **Unfair Competitive Advantage** - Occurs when a contractor has gained access to information that meets both of the following criteria:

1. the information is non-public, meaning it is information to which other firms competing for the contract award did not have access and it could not have been obtained during the course of the contractor’s normal course of business, and
2. the information would unfairly disadvantage other firms during the competitive procurement process.

(b) **Bias, Can Arise When** - The potential for bias usually arises when a contractor has, or appears to have, substantial obligations to both the Council and another organization that may have interests that are different from or compete with the Council’s interests. In these situations, a contractor may have an incentive to distort its advice or recommendations to the Council in order to benefit a competing interest of the firm’s other client(s). The firm may also perform its work for the Council in such a way that it would benefit the firm’s other client rather than in a way that best achieves the Council’s goals for the project.

(c) **Unfair Competitive Advantage, Can Arise When** - A contractor may gain access to non-public information in several ways including, but not limited to:

(i) The contractor’s current or past relationship with the Council / STARRS or with organizations that are expected to benefit from the Council’s project.

1. **Relationships** - The relationships referred to in Part B, #4(c)(i) are most likely formed through prior contract work that the contractor has completed for the Council / STARRS or the organizations that are expected to benefit from the Council’s project, but can also arise through the non-paid activities of the contractor.

(ii) The contractor has employees that serve / have served on any one of the Council’s / STARRS’ committees or sub-committees.

1. **Committees & Sub-Committees** - The Council and STARRS have many committees and sub-committees, some of which make decisions regarding the approval of projects, expenditure of funds, and other matters that may directly affect the project that is the subject of the solicitation. A contractor may gain an unfair competitive advantage if a contractor participates in non-public meetings or has an employee that serves in any capacity on one of these committees or sub-committees. Through the committees or sub-committees the contractor may gain access to not only information regarding the project but also the Council’s preferences and other information that may not be publicly available.

5. **Real, Apparent, or Potential**

The Council’s policy regarding conflicts of interest applies to those conflicts that are real, apparent, or potential. Each of these terms is defined below.

(a) **Real** - Refers to a conflict that exists in fact.

(b) **Apparent** - Refers to a conflict that appears to exist based on the circumstances when examined under a reasonable person standard.

(i) **Reasonable Person Standard** - Under the reasonable person standard, the Council will consider how the situation will appear if covered by the news media, how it will appear to the Council’s Board of Directors, stakeholders, members, or funding agencies, or how it will appear to the general public.

(c) **Potential** - Refers to a conflict that may not currently exist, but that could arise if the Council does not take steps to mitigate or eliminate the circumstances that may lead to a conflict of interest.

(d) **Examples** - Examples of the various conflicts are provided in Part E.

C. Disclosing Conflicts of Interest

1. **Questionnaire & Disclosure Statement**

Based on the Council’s Conflict of Interest Policy, each firm responding to the Council’s solicitation must include in its submittal a signed Conflict of Interest Questionnaire & Disclosure Statement that provides the Council with sufficient information to determine if a conflict of interest exists, appears to exists, or could arise with regard to the responding firm.

2. **Council Review**

The Council will review the information provided by the responding firm on its Conflict of Interest Questionnaire & Disclosure Statement and may seek additional information from the firm. All such information, and any other relevant information, will be used to determine whether a contract award to the responding firm constitutes a real, apparent, or potential conflict of interest.
Conflicts of Interest Policy
Procurement Process

3. Conflict Found
If any such a conflict is found to exist during the procurement process, the Council may:

(a) disqualify the responding firm from the procurement process, or

(b) determine that it is otherwise in the Council’s best interest to continue with the procurement process and award a contract to the responding firm and will include, in the awarded contract, appropriate provisions to mitigate or avoid the conflict.

4. After Discovered Conflicts

(a) **Definition** - An after discovered conflict of interest is one that a responding firm / contractor discovers either after the Council receives the firm’s submittal or after the contract has been awarded.

(b) **Process** - If an after discovered conflict arises, the responding firm / contractor must make an immediate, written, full disclosure to the Council. This disclosure must include a full description of the conflict and a description of the action that the responding firm / contractor has taken, or proposes to take, to avoid or mitigate such conflict. The disclosure must be sent to the person listed in Part D.

(c) **Council Review** - In the event of an after-discovered conflict, the Council will review the information provided and, if a conflict is found to exist, will undertake a course of action that is in the best interest of the Council, this may include, but is not limited to:

(i) disqualifying the responding firm from the procurement process,

(ii) terminating the contract without penalty to the Council, or

(iii) continue with the procurement or contracting process and will include, in the awarded contract, appropriate provisions to mitigate or avoid the conflict.

5. Subcontractors
The requirements in this policy apply equally to a responding firm’s subcontractors. This means that if the responding firm has hired a subcontractor or proposes to hire a subcontractor for the project then the responding firm is obligated to disclose the information required by this Part C.

6. Failure to Disclose
A firm that is competing for a Council contract has an obligation to disclose a conflict of interest (as it is described in this policy).

(a) **Definition** - A firm’s failure to disclose a conflict can occur when the firm:

(i) does not provide the required Conflict of Interest Questionnaire & Disclosure Statement,

(ii) refuses to provide additional information the Council has requested, or

(iii) misrepresents the information disclosed in the Conflict of Interest Questionnaire & Disclosure Statement.

(b) **Disqualification / Contract Termination** - A firm’s failure to disclose may result in the firm being disqualified from the procurement process. If the failure to disclose is discovered after the contract is awarded, the Council may immediately terminate the contract without penalty to the Council.

D. Point of Contact

E. Examples of Conflicts of Interest

The Council has provided the examples below to illustrate various situations in which an organizational conflict of interest may exist, appear to exist, or could arise. In each situation, the responding firm must disclose its activities, relationships, contracts, or financial interests. The examples below are not exhaustive; there are many situations that may create a real, apparent, or potential conflict of interest.

#1 - The Council is seeking a consultant to perform engineering / architecture work for one of its transportation projects. The transportation project will focus on making bicycle / pedestrian improvements to Street A. Street A is owned and maintained by the City of Z. The Responding Firm has a current contractual relationship with City of Z to perform certain architecture / engineering services with respect to Street A roadway improvements and the intersecting Street B. In this situation Responding Firm may have a conflict of interest which may cause or appear to cause the Responding Firm to be biased. Responding Firm may be in the position to choose between the competing obligations it has to the Council and its other client, City of Z. Responding Firm may have an incentive to provide the Council biased recommendations or may be unable to objectively perform its work for the Council. On its Conflict of Interest Questionnaire & Disclosure Statement, Responding Firm must disclose its contractual relationship with City of Z.

#2 - The Council is seeking a consultant to perform planning services for Project X. The planning services are related to improving the walkability of Corridor N in R-City. Corridor N is owned and maintained by R-City. R-City is planning to hire a consultant to complete architecture / engineering services as part of a major construction project at a location along Corridor N and within the Project X planning area. R-City is planning to issue a solicitation for these services sometime after Project X has begun. Responding Firm is aware of R-City's construction project and plans to compete for the architecture / engineering contract. In this situation, Responding Firm's planned activities may create a conflict of interest which may cause or appear to cause Responding Firm to be biased. Responding Firm's planned activities with regard to the architecture / engineering project may affect its ability to objectively perform services for Project X and to provide impartial recommendations for improvements to Corridor N. Responding Firm may have an incentive to perform its services in such a way as to put itself in a better competitive position for the construction project. Moreover, a potential conflict may arise if Responding Firm is selected for the future project and will have competing obligations to the Council and R-City. On its Conflict of Interest Questionnaire & Disclosure Statement, Responding Firm must disclose its contractual relationship with City of Z.

#3 - The Council is seeking a vendor to build and deliver Truck B. Truck B is being purchased by the Council / STARRS for City of Q Police Department ("QPD"). Prior to the Council issuing the solicitation, a QPD employee contacts Responding Firm and asks for assistance in preparing specifications for Truck B. Responding Firm complies and helps QPD put together the specifications for Truck B. In addition, Responding Firm's personnel attends a couple of meetings of the STARRS Sub-Committee D to discuss the Truck B project and provide the subcommittee with information about Responding Firm's products. The subcommittee meeting is not a public meeting and the information provided to Responding Firm about the project is not publicly available. In this situation, Responding Firm may have a conflict of interest which may cause or appear to provide Responding Firm with an unfair competitive advantage. First, Responding Firm helped write the specifications for the solicitation which enhances Responding Firm's position during the procurement process. Second, Responding Firm gained access to non-public information by communicating with QPD personnel and attending the Sub-Committee D meetings and this information could not have been obtained during the normal course of Responding Firm's business. Responding Firm must disclose each of the following on its Conflict of Interest Questionnaire & Disclosure Statement: (A) its role in developing the specifications for Truck B, (B) its communications with the QPD employee, and (C) its participation in the Sub-Committee D meetings.

#4 - STARRS Sub-Committee C decided at its last meeting to allocate a portion of its budget to fund a professional services contract to provide training for local first responders. Sub-Committee C's meeting is not a public meeting and the information shared at the meeting is not publically available. Responding Firm provides this type of training as part of its business and it decides to submit a proposal in response to the solicitation. Responding Firm proposes to hire Individual F as a subcontractor for the project. Individual F will serve as the lead trainer in the event that the contract is awarded to Responding Firm. Individual F does not assist Responding Firm with the preparation of Responding Firm's proposal; however, Individual F is a member of Sub-Committee C and attends the sub-committee meetings, including the meeting at which the decision was made regarding the professional services contract. In this situation Responding Firm may have a conflict of interest which may cause or appear to provide Responding Firm with an unfair competitive advantage. Individual F, and by extension, Responding Firm, had access to non-public information regarding the project and the solicitation and this information could not have been obtained during the normal course of Responding Firm's business. Responding Firm must disclose, on its Conflict of Interest Questionnaire & Disclosure Statement, Individual F's membership on Sub-Committee C and Individual F's participation in Sub-Committee C meetings.
