

Average Household Size

East-West Gateway Region

A household includes all the people who occupy a housing unit. A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and which have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living arrangements. Persons per household, or average household size, is obtained by dividing the number of people in households by the number of households.

Average HH Size

- More than 3
- 2.5 - 3
- 2 - 2.5
- 1.5 - 2
- Less than 1.5
